

IHAB ABOU DIAB

Henderson, NV | Open to Relocation | 323-378-2401 | ihababoudiab@gmail.com | ihabad.github.io/portfolio
U.S. Citizen | Bilingual: English and Arabic

PROFESSIONAL SUMMARY

Entry-level candidate targeting Transaction Monitoring and AML Analyst roles (Transaction Monitoring Analyst, AML Analyst I, BSA/AML Analyst I). Bachelor's degree in Management Information Systems with an analytical, systems-oriented background. U.S. citizen; bilingual in English and Arabic. Experienced in reviewing detailed records, identifying discrepancies, and following structured documentation and escalation procedures accurately in high-volume operations environments. Built foundational AML/BSA knowledge and transaction-pattern analysis skills through independent study and simulated Transaction Monitoring casework.

AML & TRANSACTION MONITORING KNOWLEDGE

Foundational knowledge developed through independent study and portfolio-based training, including: AML/BSA fundamentals, transaction monitoring, transaction pattern analysis, alert review, customer expected activity, red flag identification, alert escalation, false-positive concepts, and case documentation. Familiar with KYC/CDD fundamentals, Customer Identification Program (CIP) concepts, beneficial ownership, OFAC/sanctions fundamentals, and suspicious activity reporting fundamentals through self-directed learning.

SKILLS

Microsoft Excel • Record Review • Transaction Pattern Review • Discrepancy Identification • Online Research • Structured Documentation • Case Documentation • Quality Control • Attention to Detail • Analytical Decision-Making • High-Volume Operations • Digital Banking Fundamentals

TRANSACTION MONITORING & FINANCIAL CRIME PROJECTS (FICTIONAL TRAINING SIMULATIONS)

Self-directed, fictional training simulations using hypothetical data, completed for skill-building. These do not reflect real client information, regulatory filings, or professional AML system experience.

Transaction Monitoring Alert Review

- Reviewed a simulated transaction monitoring alert and compared customer transaction patterns against expected account activity to identify anomalies.
- Performed transaction-pattern analysis to identify potential red flags and documented an objective case narrative with supporting rationale.
- Produced a documented escalation recommendation based on the reviewed activity, following a structured review-to-escalation workflow.

Business KYC/CDD Review

- Reviewed fictional customer and business information, including ownership structure and beneficial ownership, to support a risk-based due diligence assessment.
- Documented risk factors and information gaps in a structured case-file format consistent with standard CDD review practices.

Account Takeover and Fraud Escalation Review

- Reviewed simulated account activity to identify unusual login activity and rapid account changes, reconstructed a timeline, and documented findings with a recommended escalation.

PROFESSIONAL EXPERIENCE

Web Operations & Quality Control Specialist — Flashframe Management LLC (Self-Owned)

January 2023 – Present

Henderson, NV

- Reviewed detailed website and system performance data across multiple platforms to identify discrepancies, errors, and unusual results, then investigated root causes before applying corrections.
- Verified findings for accuracy and maintained clear, structured documentation of technical issues, changes, and resolutions to support consistent quality control.
- Followed repeatable procedures to manage multiple concurrent tasks accurately, prioritizing work to maintain service reliability for an independent web services business.

Material Handling Technician (Operations) — OnTrac

August 2022 – September 2022

Henderson, NV

- Followed established procedures to scan, label, sort, and inspect packages, identifying discrepancies in routing or documentation while maintaining accurate records in a high-volume environment.
- Identified process issues, communicated them to team members, and completed assigned work reliably under time constraints while adhering to quality and documentation standards.

Customer Accounts & Operations — LIFCO

December 2018 – July 2021

Dubai, United Arab Emirates

- Maintained accurate customer account and transaction/order records in a fast-paced, multicultural business environment, ensuring accuracy in orders and documentation.
- Reviewed customer and account information to identify and resolve discrepancies, working accurately and efficiently in a high-volume environment.

EDUCATION

Bachelor's Degree in Management Information Systems — Lebanese International University

Business-focused program emphasizing information systems, data management, documentation, and analytical decision-making.
